

**COLLIERVILLE
500 POPLAR VIEW PARKWAY
CONSTRUCTION CODES DIVISION**

**SWIMMING POOL DRAINAGE, SURFACE DRAINAGE AND
EROSION CONTROL REQUIREMENTS. (SP104)**

Full compliance with The Town of Collierville Erosion and Sediment Control Ordinance must be maintained during the construction of this swimming pool by the installation and maintenance of silt fences or other erosion control measures.

I fully understand that it is my responsibility not to alter the natural flow of lot drainage or to in any way create a negative impact to any adjacent property owner by installation or placement of a swimming pool that is located within the corporate limits of Collierville. I further acknowledge that I assume all liability for any damage as a result of negative drainage that I may have caused to surrounding properties as a result of the construction of this pool.

I also acknowledge that the pool discharge water must be disposed of in the sanitary sewer through an approved main outlet at the deepest point of the pool.

The Town of Collierville reserves the right to require the property owner to hire an engineer to submit a drainage and grading plan if the Town believes that the drainage of the property has been negatively altered.
